

Attention Middle and High School Students!

Give thanks by restoring a local wetland habitat!

SATURDAY, NOVEMBER 17, 2007

10am-1pm

At Dow Wetlands in Pittsburg

Bus Transportation provided for East Bay students (see details below).

REGISTRATION IS REQUIRED for this event by Monday, November 12th.

-
- ◆ **Join other Bay Area teens, EarthTeam, and Dow WET Team to restore S. F. Bay habitat!**
 - ◆ **Plant your own native plant!**
 - ◆ **Meet other teens while having fun and earning community service credit!**
-

WHAT TO BRING

1. Participants must wear **closed-toe shoes**. We recommend dressing in layers and wearing long pants. Bring a hat, sunglasses, and jacket for protection against the sun. Be prepared to get dirty!
2. **Permission slip forms are required for all participants**. Please bring them on the day of the event, already completely filled out and signed by a parent/guardian. The **two** forms are attached.
3. Bring your own water bottle to help us reduce plastic waste!

We provide tools, work gloves, snacks, and water!

BUS TRANSPORTATION

EarthTeam will provide bus transportation for groups of 15 or more students. Space is limited. Bus pickup locations are determined based on reservations, which are first-come, first served. We ask for a \$3 donation to help offset the cost of bus rental, however no interested student or adult will be turned away for lack of funds. **REGISTRATION for bus service is required by Monday, November 12th.**

DRIVING DIRECTIONS

Note: Plan to go directly to the wetlands, NOT to Dow Chemical. The entrance to the preserve is off the Pittsburg-Antioch Highway. From Highway 4 east, exit at Loveridge Road and turn left onto Loveridge. From Highway 4 west you will also exit at Loveridge, loop around and turn left. Turn right on Pittsburg-Antioch Highway. Watch for a large gray building to your right with a blue stripe on it - "Goodwill". Slow down and turn left directly across from their driveway. You will see a metal fence with the gate open and a sign for the site. Enter the gate and follow the road until you reach a turnoff to the right. Bear right on the dirt road toward the beaver pond area.

IN CASE OF RAIN

We will plan to work in light rain. However, the restoration program may be cancelled in the event of heavy rain. To confirm, please contact Trisha at 510-725-5658 after 8:00 am, the morning of the event.

This project is funded by The Dow Chemical Company

REGISTRATION IS REQUIRED by Monday, November 12th!
